

Chapter 2 A new chapter

f you haven't yet read the getting started Wiki pages; [start there](#)

Every chapter needs to start out with this chunk of code:

2.1 Learning Objectives

*Every chapter also needs Learning objectives that will look like this:

This chapter will cover:

- {You can use <https://tips.uark.edu/using-blooms-taxonomy/> to define some learning objectives here}
- {Another learning objective}

2.2 Libraries

For this chapter, we'll need the following packages attached:

*Remember to add [any additional packages you need to your course's own docker image](#).

```
library(magrittr)
```

All illustrations [CC-BY](#).

All other materials [CC-BY](#) unless noted otherwise.
